

NC-6500

Compact Two Pocket Banknote Sorter

Description

A cost effective and quiet banknote sorter designed specifically for tellers.

The NC-6500 compact multi-currency sorter perfectly fits teller operations with advanced image processing technology.

Advanced multi-detection technology provides low reject rate and high acceptance as an answer to today's high security demands.

Efficient

Extra reject pocket for smooth processing without interruption.

Accurate

Counterfeit detection: MR, MG, CIS, UV, IR reflection and transmission, tape sensor.

Connectivity

Remote currency file updates and collection of statistical information.

Specification
